

Nestly

/ˈ nest.li/ — trusted help, welcomed home

The visual and verbal identity for a platform that lets people book verified household help — cleaning, repairs, and care — in a few taps, with a company standing behind every worker sent to the door.

— POSITIONING

A household services brand should feel less like a marketplace and more like a household name.

Nestly is calm where competitors are chaotic. Every color, word, and interface pattern reinforces one idea: someone trustworthy is on the way, and the company stands behind them. The palette borrows from moss, water, and morning light — nothing alarms, nothing sells too hard. Warmth is reserved for the moments that need urgency or celebration.

— COLOR SYSTEM

Rooted in the original palette, extended for contrast

The five source tones form a calm, trustworthy base — used for backgrounds, surfaces, and secondary elements. Three additions carry the weight competing tones can't: legible text, urgent moments, and warm celebration.

Jungle Teal #6B9080 — Primary	Muted Teal #A4C3B2 — Secondary	Frozen Water #CCE3DE — Surface	Azure Mist #EAF4F4 — Background	Mint Cream #F6FFF8 — Base
Ink #1C2B24 — Text	Warm Tangerine #F4A261 — Action / Offers	Emergency Red #D62828 — Alerts / Emergency		

Why the additions: the original five sit close together in hue and lightness, so on their own they can't carry body text or urgent states at accessible contrast. **Ink** (a near-black drawn from the same green family) handles all text on light surfaces. **Warm Tangerine** is the one high-energy color in the system — reserved for primary calls to action, offers, and anything that needs to be found fast against the cool greens. **Emergency Red** is a sharper, more urgent tone kept strictly for emergency booking and critical alerts, so it never competes with Tangerine's everyday energy.

— TYPOGRAPHY

A warm serif for trust, a plain sans for clarity

Fraunces carries the brand's personality in headlines and pricing — a little softness and craft. Manrope handles every interface label and paragraph, chosen for how cleanly it reads at small sizes. IBM Plex Mono marks anything factual: booking codes, timestamps, statuses.

DISPLAY · FRAUNCES 500

Book trusted help, today.

BODY · MANROPE 400 / 600

Enter your address, pick a time, and we'll assign a vetted professional from our internal team. You'll see exactly who's coming and track them in real time.

UTILITY · IBM PLEX MONO

BOOKING #NS-48213 · WORKER ASSIGNED · 14:32

— VOICE & TONE

Plainspoken, never salesy

Nestly talks the way a good neighbor gives directions — short, specific, no filler. Confidence comes from clarity, not exclamation points.

Say what happens, not what's possible

Name the action a person just took or is about to take, in the interface's own vocabulary.

USE

Worker assigned — Amir arrives by 3:40 PM.

AVOID

Your service provider matching process is complete!

Errors explain, they don't apologize

State what went wrong and the next step. No "oops," no blame.

USE

Payment didn't go through. Try another card.

AVOID

Oops! Something went wrong on our end, sorry about that.

Trust is stated plainly, not promised loudly

Reference verification and internal assignment as fact, not marketing.

USE

Every worker is background-checked and employed by Nestly.

AVOID

100% guaranteed trusted professionals, always!

Urgency is reserved, not routine

Warm Tangerine and Emergency Red language stay for genuinely time-sensitive moments — not every notification.

USE

Emergency slot open now — arrives within the hour.

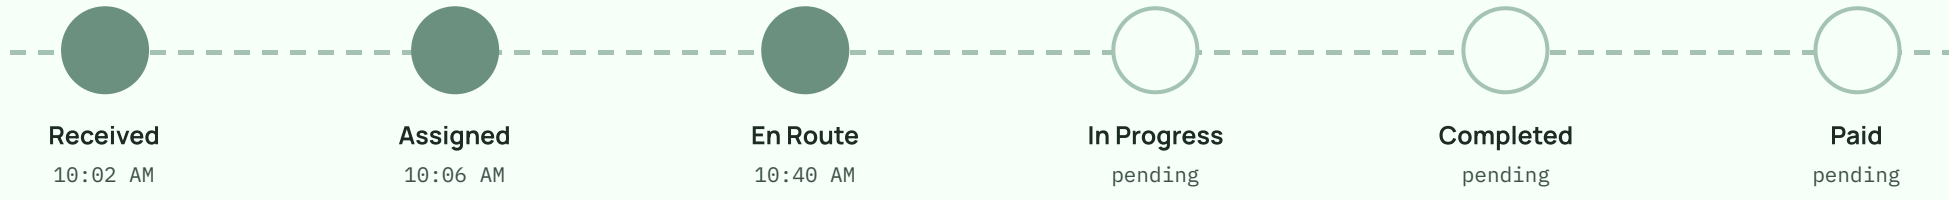

AVOID

Hurry! Book now before it's too late!

— SIGNATURE ELEMENT

The Growth Path

Every booking moves through six stages. Instead of a generic progress bar, Nestly renders that journey as a path of leaves coming into bloom — the one motif unique to this brand, used everywhere a booking is tracked.

— IN USE

Core UI components

A booking card and button system built directly from the palette and type rules above.
